

<h4>MB/C - Metal Bellow Seal for High Temperature Application</h4>	
	
<h4>Features</h4>	
<ul style="list-style-type: none"> Made from finest raw material from best sources world wide Manufactured on state of the art Micro Plasma welding equipment from Switzerland. Micro Plasma welding prevents heat damage on the metal bellow foils during the weld process Fine performance under high temperature application Single ply double ply bellow configurations Simple Designs or complex cartridge configurations possible as per customer requirement Available in edge welded or hydro formed bellow design. Design features include: direct drive, torsion- free drive, pumping screws, hydrodynamic facial groves etc Can be made to conform to API - 682 / ISO - 24960 standards 	
<h4>Applications</h4>	
Industrial, Marine	
<h4>Application Data</h4>	
Seal Faces	
Carbon, TC, SIC etc	
Secondary Packing	
Viton, Kalrez, Grafoil, Chemraz	
Bellow in	
SS 316L, Hastalloy C, Titamium, Inconil, Monal	
Pressure	Vacuum to 40 kg/cm2
Temperature	upto 450c
* For more rigorous application consult General Seal
